

Dear FCC

I find it an outrage that the NAB petition 04-160 is being foisted up the public! I switched to XM and have been thrilled with it ESPECIALLY because it HAS NO COMMERCIALS AND NOW CAN GIVE ME TRAFFIC AND WEATHER ALSO. I pay for this service and should be able to get what I want on it! This service is stand head and shoulders above broadcast radio! Tell the NAB that XM is the type of competition that they should meet or pay the price for not doing so! Please disregard this petition and let the people have WHAT THEY ARE PAYING FOR!

Thank You
Joe Blanton
